

Results Cape Town tulip Growing season 2017

A field in the Netherlands planted with Cape Town tulip bulbs was treated three times with the GOOD FOR GREENS® plant growth regulator. After lifting, a random sample of each treated and control bulbs was collected, sorted weighed. The results are graphically shown below.

Graph 1 shows that the GOOD FOR GREENS® plant growth regulator makes the bulbs jump a size.

Total weight of the treated sample is 9.007 grams for 328 bulbs. The control sample has 7.808 g for the same number of bulbs, meaning an overall increase of 1.199 g or 15%.

Conclusion: The GOOD FOR GREENS® plant growth regulator increases bulb weight in Cape Town tulip bulbs by 15% and makes the bulbs jump a size.
