

Results Carnegie hyacinth Growing season 2017

A field in the Netherlands planted with Carnegie hyacinth bulbs was treated four times with the GOOD FOR GREENS® plant growth regulator. After lifting, a random sample of each treated and control bulbs was collected, sorted weighed. The results are graphically shown below.

Graph 1 shows that the GOOD FOR GREENS® plant growth regulator produces larger bulbs.

Total weight of the treated sample is 16.778 g for 251 bulbs. The control sample has 16.009 for the same number of bulbs, meaning an overall increase of 769 g or 5%.

Conclusion: The GOOD FOR GREENS® plant growth regulator increases bulb weight in Carnegie hyacinth bulbs by 5% and increases bulb size.
